North Fork Rancheria of Mono Indians of California
RFP for FEMA Approved Tribal Pre-Disaster Mitigation Plan Consultant
Published: June 8, 2017
SOLICITATION NO.: PDHMP 2017-01

Dated: June 28, 2017

- 1. Does the tribe have GIS data that will be made available to the consultant? If so, what data layers are available?**

NFR does not have GIS data available. The RFP states in the Section C – Scope of Services: Hazard Identification & Risk Assessment – hazard identification, profiling and **GIS mapping**. Identify and inventory critical assets, vulnerability and consequence assessment including HAZUS-MH

- 2. Is the tribe open to some meetings being conducted via video/teleconferencing?**

It is NFR's hope that during the initial planning process the consultant will come out and meet with our Tribal Council and Executive staff to develop a mitigation planning team, develop public and stakeholder outreach strategy public workshops. It is our understanding due to our location that it will be necessary to hold video/teleconferencing when necessary.
