Delivering Tomorrow's Workforce Today

2024 Entry to Vegetation Management

Entire PG&E Service Territory

Your Career Pathway to Vegetation Management

PG&E PowerPathway™ is now accepting applications for the 2024 Entry to Vegetation Management program – a customized 4-week program that includes soft skills, technical, and hands-on training. Technical training includes PG&E's vegetation management basic curriculum including intro to vegetation management, patrol responsibilities, evaluating trees, tree risk assessments, inspection fundamentals, prescribing tree work, abnormal field conditions, and positive customer relations. The program is designed to strengthen your candidacy for Vegetation Management Inspector roles at PG&E.

PG&E PowerPathway™ helps people in underserved communities, including women, minorities and military veterans, to prepare and compete for high demand jobs in the utility and construction industries.

Is a career in vegetation management right for me?

- ✓ Are you a California resident?
- ✓ Do you have experience working in tree care?
- ✓ Do you have a passion for supporting work that prevents catastrophic wildfires?
- ✓ Do you like working outdoors?
- ✓ Are you able to work overtime and travel to support emergency events?

Apply online

Complete an [online interest form](#) by **8/25/2024**. Candidates who meet the minimum qualifications and location requirements will be invited to attend an information session to learn more.

Training will take place in **late fall 2024** at Santa Rosa Junior College (Petaluma Campus). There is no fee to participate in the program and no guarantee of employment at PG&E.

All program participants will be required to pass a background check and drug screening.
